

Partnership to Act on Climate Change and Environmental Protection” (P2ACE)

Project Factsheet

Rational

Southeast Asia is one the most vulnerable regions to climate change due to its geography, high concentration of people and economic activities in coastal and other high-risk areas, and the key role of agriculture and other natural resource-dependent livelihoods, especially in rural communities. The population in ASEAN countries is vulnerable to rising sea levels, high deforestation rates, biodiversity losses, climate-induced extreme weather events and overexploitation of natural resources. 224.2 million youths represent about 34% of the ASEAN population and are set to inherit the consequences of today’s climate and environmental inaction or wrong actions by decision-makers.

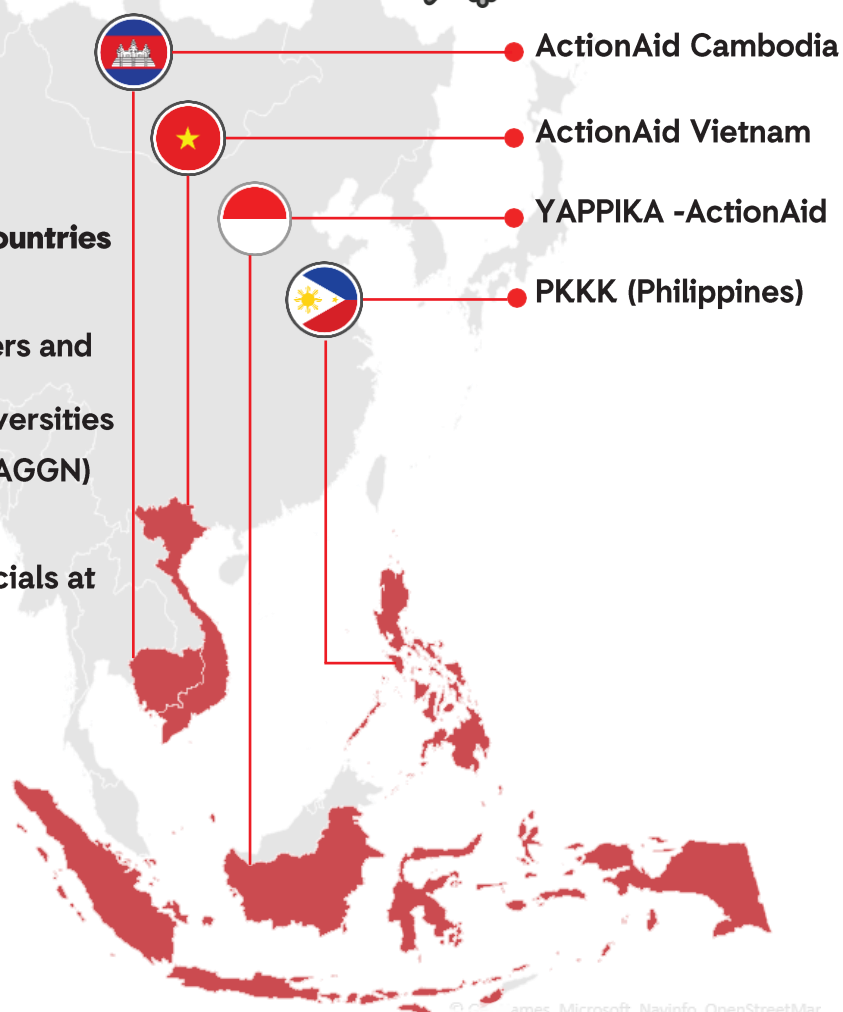

Implementers:

Target Groups:

 **2.4 million young people** aged 15-35 in **4 ASEAN Countries**

- 1,000** Education managers and Teachers and
- 190** Youth groups in **190** schools/universities

- 100** policymakers and government officials at local and regional levels
- 25** Civil Society Organisations
- 06** Media Outlets

 **Project Period:**
13 March 2023 to 12 February 2026

 **Budget:**
GBP 1, 343, 006

Overall Objective:

To mobilize 2.4 million young people in Southeast Asia around climate change, environmental protection and DRR.

Specific Objective:

To build proactive partnerships between youth, civil society, and local authorities to act on climate change impacts, environmental protection, and DRR in ASEAN.

Outputs

190 Youth-for-SDGs (Y4SDG) groups
47 youth-led initiatives to climate action
1 youth-led online social media campaign for **2.4** million youth

12 project management and coordination meetings.
3 Capacity session to action staff
Communication and Visibility Strategy, Internal M&E, and financial control systems are in-placed

Youth-Led Initiatives and Actions

Management and Coordination

Digital Environmental Education Program for youth

1 market research
1 baseline study
1 business plan for the Gender-Sensitive and Inclusive Digital Youth Environmental Education
3 multi-linguistic and interactive e-learning platforms
190 schools/universities built partnership
270 webinars and in-person training for 7, 5000 youths and 25 CSOs
1 Outreach Strategy

Youth Mobilization and Advocacy

1 ASEAN Green Generation Network (AGGN) with **190** active members and partnership with **25** CSOs, **15** government institution and **6** media outlets
1 campaign for **1.3** million young people
3 exposure visits to ASEAN Member States and European Union Member States
8 in-person and live-streamed policy workshops
